# JOB SCRAPING

## Save time, save money with automatic job scraping.

Head Start California members can sign up for job scraping (also known as job wrapping) and we'll automatically pull Head Start jobs from your own website and post them on our board. No need to re-post each Head Start job to our site. Receive more exposure with improved search engine optimization (SEO) and drive more candidates to your job posting!

## Why sign up for job scraping?

- Save staff time: No need to re-post each individual job to our site
- Choose custom filters so only specific jobs will be scraped based on keywords

## How it works:

Once per day, our bots will search your site's job page, and pull and post the relevant jobs to our site under your account.

**Interested? Please fill out the form below and submit it to jobsite@headstartca.org**

**Name:**
**Title:**
**Company:**
**Your Job Site or webpage URL:**
**Filter keywords (only pull jobs that contain these keywords in the job title and/or description):**

1) Head Start           2)                    3)                    4)

*Please note: only Head Start jobs can be posted to Jobs at Head Start, so the first filter will be added by default. Any additional filters are optional.*

**Questions? Please contact us at jobsite@headstartca.org**
